

WASHING INSTRUCTIONS

Recommended to hand wash only in cold water
Do not tumble dry

IRONING INSTRUCTIONS

Recommended to Iron fabric on the wrong side only

CRYSTAL APPLICATIONS

Beware of synthetic fabrics as they may melt with the temperature required to fasten crystals. Recommended temperature 150° C to 160° C

DO NOT USE STEAM BUTTON

When using house hold iron test on inside of garment first where it can't be seen to make sure fabric can handle high heat setting.

Pre press right side of garment for a few seconds to eliminate moisture.

Peel off white backing sheet – lay crystal image onto garment. Place piece of baking paper (not grease proof) over the top of the image.

Press moving iron all over the image area for about 40 seconds Remove baking paper and do not wait for garment to cool.

Slowly peel off plastic sheet in one smooth action leaving behind crystals ironed onto fabric.

Replace baking paper directly onto ironed on crystals and lightly press again for about 10 seconds.
